DR-118DET

DR-118DET

Description

The Dromex® DR-118 DET, high visibility soft pliable, corded thermo plastic rubber earplugs are designed with optimum protection and comfort of the ear canal offering the highest level of protection against noise.

These easy to insert, lightweight, non-toxic, non-irritating waterproof, washable, reusable and easy to carry earplugs are the DR-118 DET is comfortable for long-term wear in hot, humid work areas.
Individually packed for hygienic dispensing even when installed in dusty production areas.

Suitable for use in environments such as food processing, machining, grinding, steel cutting and woodwork.

Special Instructions

- Do not share earplugs as ears can be exposed to ear infections.
- The earplugs should be worn properly at all times in noisy surroundings.
- The earplugs should be fitted, adjusted and maintained in accordance with the instructions provided in the packaging.
- If the recommendations are not adhered to, the protection afforded by the earplugs will be severely impaired.
- The earplugs may be adversely affected by certain chemical substances; avoid the use of agents (i.e. solvents and other disinfectants) that are known to be harmful to the wearer and/or the earplug.
- Regularly inspect for tears or cracks and replace if service ability is suspected to be affected. Corded earplugs should not be used where there is a risk that the connecting cord could be caught up during use.
- Sounds above 85dB are harmful to the ears.

Compliance & Conformity

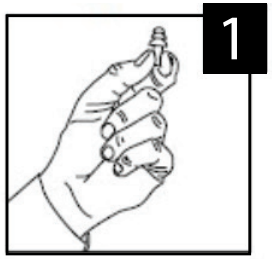
Materials

None of the materials used in the manufacture are known to adversely affect the hygiene or health.

Disposal

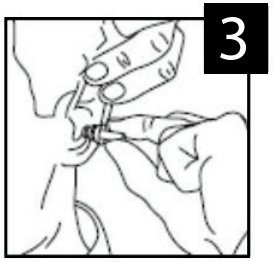
All industrial waste should be disposed of correctly as per local regulations and good disposal practice. Hearing protective devices should be disposed of considering the hazardous substances they were used for.
Please consider recycling.

Fitting your Reusable Ear Plugs

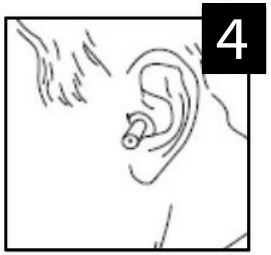


Hold the stem of the ear plug firmly behind the largest flange.

Reach over your head with the opposite hand and pull the top of your ear to open the ear canal. While you are still holding the ear open, push the smallest flange of the plug into your ear canal, twisting the plug slightly as you push.



For the best noise reduction, insert plugs as deeply as possible.



Here is the reusable ear plug properly positioned in the ear canal.
