

65/35 HACCP DUSTCOAT

DW-HACCP-XX-DC

Description

The Dromex® DW-HACCP (Hazard Analysis Critical Control Points - a systematic approach to the identification, evaluation, and control of food safety hazards) dust coat is designed for daily wear, used in the food industry.

The garment construction is strong and durable, providing the user with protection against mechanical hazards such as abrasion and tear, whilst withstanding the laundry requirements of the food industry.

Made with a blend of 65% Polyester and 35% cotton fabric that features the sturdiness and colour fastness of polyester and the comfort from cotton.

This coat is available in 4 different colours, white, royal blue, navy blue and red which consists of the following:

- The shoulders, armholes and side seams are triple stitched for added durability.
- An internal open pocket with pen division on the left breast.
- Back slit on rear of coat allows flexibility of the coat especially when sitting or bending whilst preventing the coat fabric from bunching and wrinkling.
- Sleeves are partially elasticated for a comfortable fit which prevents sleeve roll ups and won't get caught in machinery.
- Double concealed press stud closure.
- Dromex® wash care labels sewn into neck.
- Single stitched 1.5cm hem.

Specifications

Style:

Long sleeve, knee length dust coat with metal press stud fasteners.

Fabric composition:

65% Polyester 35% Cotton.

Mass:

235 gsm.

Fasteners:

Metal press studs closure.

	137/54	75	108	67.5	58.2	16.5

Packaging, Storage & Obsolescence

Dromex® DW-HACCP-DC are packed in individual polybags.

Cleaning & Maintenance

- The following suggestions will help keep your garment safe and neat:
- Polycotton garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and setting are adhered to.
- Should home procedures not remove contaminants, then dry cleaning is recommended.
- Our recommended cleaning for these garments is as follows:
 - Pre-treat greasy stains and wash the garment in warm water with a light cleaning solvent.
 - Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach as fading may occur.
 - Do not tumble dry.
 - Thoroughly rinse the garment to remove any wetting agents.
 - Do not hang in direct sunlight as fading may occur.
 - Iron the garment on low heat.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Workwear should be disposed of considering the hazardous substances they were used for. Please consider recycling.
